

# IoT Database Engineer (m/w/x)

FULL-TIME

We are looking for Database Engineers to work with one of our clients, a leading provider of a M2M/IoT Connectivity Management Platform for the telecommunication industry.

## SCOPE OF RESPONSIBILITIES

- Write, improve, or refactor PL/pgSQL procedures, functions, and other queries
- Create and update data manipulation and automation using shell scripts and other tools
- Write, improve, or refactor data model upgrade tools, execute and control upgrades
- Review production database performance issues
- Identify and address problematic database development patterns
- Provide routine guidance to development teams for best practices
- Interact with on-prem and Microsoft Azure cloud database resources
- Maintain the production databases and provide 24/7 support

## TYPICAL WORKING DAY

- Collect requirements from development teams about local data models
- Design company data models (relational or not)
- Deploy and maintain data models PostgreSQL and MySQL

## THE TECHNOLOGIES WE USE

Debian OS, PostgreSQL, MySQL, REDIS, Apache Kafka, Azure Cloud, OpenStack, Ansible, JavaScript, Bash, Terraform, Docker + Kubernetes, Influxdb, Grafana, Telegraf, HBase, AWS and many other technologies.

## WHAT ARE WE LOOKING FOR

- 4+ years of experience
- Graduate in computer science or related degree
- Expert knowledge of Linux OS (Debian family)
- Experience with PostgreSQL 12+, MySQL 5.7 or 8.0, PostgreSQL FWD, PL/pgSQL and ANSI SQL, Streaming Replication
- Experience with OpenStack/VMware and AWS/Azure cloud platforms
- Good written/spoken English

## NICE TO HAVE

- In-depth knowledge and experience in some of the listed technologies
- Knowledge of Prometheus, ElasticStack
- Docker and Kubernetes experience is valuable for us

## WHAT WE OFFER

- B2B contract or contract of employment
- Flexible working hours and possibility to work remotely
- Competitive compensation
- Interesting and challenging projects in an international environment
- Long-term career and development opportunities
- Office in an attractive location based in Bratislava
