

IoT QA Test Engineer (m/w/x)

FULL-TIME

We are looking for QA Test Engineers to work with one of our clients, a leading provider of a M2M/IoT Connectivity Management Platform for the telecommunication industry.

SCOPE OF RESPONSIBILITIES

- Supporting the QA team in providing high-quality internal tools, services, and environments
- Creating and maintaining automatic test suites
- Creating and executing manual test cases
- Doing defect analysis
- Sharing your insights and knowledge with other team members and supporting them in solving complex challenges
- Designing and creating a low maintenance suite of stable, re-usable automated tests, which are usable both within the product or domain and across domains and systems in an end-to-end capacity

TYPICAL WORKING DAY

- Creating manual and automation test cases
- Defect analysis, test data preparation, , test execution
- Cooperation with developers

THE TECHNOLOGIES WE USE

Confluence, JIRA, Debian OS, PostgreSQL, MySQL, Redis, Kafka, Azure Cloud, OpenStack, Ansible, JavaScript, Bash, Terraform, Docker + Kubernetes, Influxdb, Grafana, Telegraf, HBase, OpenStack, AWS and many other technologies are used to build our client's Connectivity Management Platform.

WHAT ARE WE LOOKING FOR

- 2+ years of experience in manual or automated testing
- Graduate in Computer Science, Telecommunication or Mathematics
- Knowledge of Linux OS (Debian family) (command line tools)
- Experience with SQL, Rest API, Postman, SOAPUI, Wireshark, RobotFramework
- Experience with Confluence and JIRA, X-Ray
- Experience with telecommunication systems
- Good written/spoken English

NICE TO HAVE

- ISTQB certification will be an added advantage
- Experience in developing automated scripts
- Experience in programming and/or scripting (Python, Shell Scripting, Java)

WHAT WE OFFER

- B2B contract or contract of employment
- Flexible working hours and possibility to work remotely
- Competitive compensation
- Interesting and challenging projects in an international environment
- Long-term career and development opportunities
- Office in an attractive location based in Bratislava

Are you interested in working in a dynamic team? Do you like creative freedom and enough space to develop yourself?
